

# THE BIGGEST DEVELOPMENT IN LIFTING SINCE GRAVITY.

Introducing the fully electric eLift by EnKon.

## PRODUCT FEATURES:

PRODUCT TYPE	Electric Scissor Lift Table
ACTUATOR	Electric motor drive
CAPACITY	Up to 3000 lbs
RAISED HEIGHT	Up to 47"
BEARINGS	Lubricated for life
PIVOTS	Replaceable hub
WHEEL TRACKS	Hardened
MAINTENANCE STOPS	2 quantity
POWER	220 VAC 3-phase
SAFETY	Bellows skirting
FLOOR MOUNT TABS	3/4" holes, 4 quantity
LIMIT SWITCHES	Upper / lower
PENDANT PUSH BUTTON	Up / down / E-stop
FOOT CONTROLLER	Up / down
COUNTRY OF ORIGIN	USA

## THE INDUSTRY'S FIRST ELECTRIC VERTICAL ROBOT

ELTO is the first industrial scissor lift table of its kind, featuring a breakthrough, patented, fully electric low-profile gearmotor transmission to deliver unmatched lift performance over high duty cycles.

# GO ELECTRIC AND ELEVATE YOUR OPERATIONS.

Over time, hydraulic lift mechanisms lose pressure and leak fluid. This can cause job site safety issues, diminishing precision, poor reliability and a limited lifespan. ELTO utilizes a patented, fully electric drive system that delivers unmatched precision, reliably holding positions over high duty cycles. It uses no hydraulic fluid and requires very little maintenance. Plus, ELTO features a low profile for improved throughput and wide-ranging applications.
